INSTRUCTIONAL DESIGNER

Online Education | Course Development | EdTech | Curriculum Development

A collaborative & detail-oriented Educator with over 12 years of instruction experience, including designing curriculum and online education tools. I have a passion for developing courses that address instructional objectives, create engaged learners, and fosters learner success.

Curriculum Development / Instruction Design / Blended Learning Solutions / e-Learning Development Training / Instructor Led Training & Virtual Instructor Led Training / Program Development / Customized Learning

PROFESSIONAL EXPERIENCE

Freelance

2024–Present

Instruction and Curriculum Designer

Driven by passion, my work as a curriculum and instruction designer is to innovate learning experiences. I am focused on designing engaging, effective curricula and learning experiences that meet diverse learning needs. My expertise is in aligning content with educational standards, integrating technology, and collaborating with subject matter experts, stakeholders, and teams to enhance the learning experience to help companies reach their diverse range of goals.

Hamilton-Wentworth Catholic District School Board

2012–2023

Teacher

During my time as a teacher, I passionately embraced being a technology lead among staff, students, parents, while also mentoring fellow teachers, and led various clubs and sports. I developed curriculum for new programs to keep abreast of emerging technologies and support student success. My pedagogical practices include utilizing a variety of e-learning resources and learning management systems, curriculum for new programs to keep abreast of emerging technologies, and supporting student success.

- Increased learning EQAO math scores by 15% and literacy by 20%.
- Improved student utilization of online LMS tools by 100% by better training students on LMS capabilities before the onset of COVID.
- Created and managed workshops to promote technology practices that increases efficiency and effectiveness for Teachers to aid with time management, self-motivation, and assessment strategies.
- Tracked student progress toward learning objectives by creating a variety of assessment strategies to adapt curriculum planning and teaching methodologies.
- Analyzed student data to refine instructional processes.

DAVE FRISCOLANTI
